

CP Reports

CP Reports

Semantic Summary

CP Reports is a small-scale UK/Ireland-based YouTube auditing channel operated under the handle CaoimheVlogs, suggesting a female Irish operator named Caoimhe — an unusual demographic profile in the predominantly male UK auditor scene. The channel positions itself against mainstream media, posting about "holding places accountable" and "showing what the MSM don't show." Despite its small following (919 X/Twitter followers), the account has documented presence at pro-Israel vigils at Downing Street and has engaged with Tommy Robinson's network, indicating alignment with the broader far-right activist ecosystem. The channel's modest scale and 2024-2025 creation date suggest an early-stage entrant to the auditing space, with content spanning audit footage, Israel-related activism, and SEND funding advocacy. The operator's attendance at events alongside the far-right activist network — including posting about meeting Tommy Robinson — positions CP Reports within the periphery of the auditor-to-far-right-activist pipeline, even as the channel's limited reach distinguishes it from major players like AY Audits or Auditing Britain.

Comparison Notes

CP Reports appears to be a **very small-scale** operator compared to established UK auditor channels. Key differences:

- Subscriber count is likely very low (possibly under 1,000 given the channel is not widely referenced)
- Less polished content output compared to channels like AY Audits (134K subs), BBA (120K subs), or Wesley Winter (211K subs)
- The operator appears to be female (based on Irish name Caoimhe), which is relatively unusual in the UK auditor scene (predominantly male)
- Irish name suggests possible Irish/Northern Irish origin, distinguishing from the predominantly English auditor scene
- Channel creation date appears to be 2024-2025 (the Facebook page was created in 2024)
